3) Potential Health Effects and Hazards

HMIS Rating: Health (1) Flammability (2) Reactivity (0) Personal Protection ()

Eye: Contact/Exposure with liquid or high vapor concentrations can cause severe eye irritation. Symptoms include stinging, tearing, redness, and blurred vision.

Skin: Brief exposure may cause skin irritation. Prolonged or repeated exposure may cause defatting and drying of the skin which may result in dermatitis.

Ingestion: Single dose oral toxicity is low. Ingestion/swallowing small amounts of this material during normal handling is not likely to cause harmful effects. Swallowing large amounts may result in severe G.I. irritation.

Inhalation: Breathing of vapor or mist during normal handling and use is possible. Breathing large amounts during application or misuse of product may be harmful. Avoid air concentrations exceeding recommended exposure limits (see Section 2).

Symptoms of Exposure: Signs and symptoms of exposure to this product through breathing, swallowing, and/or passage of product components through the skin may include skin irritation (burning, redness), stomach or intestinal upset, irritation of airways, and central nervous system depression which may lead to unconsciousness.

4) First Aid Measurers

Eyes: If symptoms develop, remove from exposure. Flush eyes with water while holding eyelids open. If symptoms persist, seek immediate medical attention.

Skin: Remove affected clothing. Flush exposed skin with water to reduce irritation. If symptoms persist, seek medical attention.

Ingestion: If symptoms develop, seek medical attention/advice. Contact a doctor or poison control center for advice about whether to induce vomiting.

Inhalation: If symptoms develop, move away from exposure and into fresh air. If symptoms persist, keep person warm and quiet. Seek medical attention. If breathing is difficult, administer oxygen.

NOTE TO PHYSICIANS: Possible Aspiration Hazard. Note hazardous material component(s) (Section 2).**5) Fire Fighting Measurers****Flammable Properties**

Flash Point: 118°F (48°C) Method: Tag Closed Cup (TCC)

Flammable Limits:

Lower Flammable Limit: 1.0%
Upper Flammable Limit: Unknown

Autoignition Temperature: No Data

Hazardous Combustion Products: Products of combustion may include carbon monoxide, carbon dioxide, and hydrocarbons.

Extinguishing Media: Carbon Dioxide, Dry Chemical for small fires. Alcohol type or general purpose foam for large fires. Water spray may be ineffective but may be used to cool fire exposed containers.

Fire Fighting Instructions: Wear self-contained breathing apparatus with all appropriate turn-out gear and chemical resistant protective equipment. Smother to exclude air. Handle as an oil fire.

SAFETY DATA SHEET**Trade Name:** Raybo 56 Magnamix**Version:** 4.0**Date:** 4-17-08**6) Accidental Release Measurers**

- Personal Precautions:** Provide adequate ventilation. Wear appropriate personal protective equipment (PPE) and exclude those unprotected from the area. Eliminate all sources of ignition.
- Environmental Precautions:** Prevent discharge to streams, lakes, or other bodies of water. Transfer to a salvage vessel if possible. Notify supervisors or proper authorities that a spill has occurred. (See Section 13 for Disposal Information)
- Methods for Cleaning Up:** Stop spill at source. Immediately collect and containerize uncontaminated product and use in non-critical areas if possible. If contaminated (dirt, deleterious materials, etc.) containerize and absorb any residual or unrecoverable product with vermiculite, floor absorbent, etc.

7) Handling and Storage

- Handling:** Handle containers (even empty) with caution. Combustible Liquid. Do NOT use product near heat, spark, open flame, or other sources of ignition. Empty containers retain product residue (vapor, liquid, and/or solids). Vapors are heavier than air and may travel along the ground or be moved by ventilation and ignited by ignition sources at locations distant from the handling point. Use recommended PPE when handling containers. Ensure availability of emergency eyewash and shower facilities. Minimize inhalation.
- Storage:** Store closed containers in a cool, well ventilated place, away from ignition sources and incompatible material. Keep containers tightly closed.

8) Exposure Controls/Personal Protection

- Engineering Controls:** Provide sufficient mechanical (general or local exhaust) ventilation to maintain exposure below TLV(s) listed in Section 2. Always provide mechanical ventilation of confined spaces.
- Respiratory Protection:** If engineering controls do not maintain airborne concentrations below recommended exposure limits, (Section 2), an approved (NIOSH/MSHA) respirator must be worn. Respirator type: chemical cartridge; mist, organic vapor; may be appropriate up to 10X PEL. Consult your safety administrator. Respiratory protection should be used in compliance with OSHA standard 29 CFR 1910.134.
- Skin Protection:** During handling and application, wear solvent/chemical resistant gloves, rubber or Buna N. Wear clothing/coveralls appropriate for the risk of exposure.
- Eye Protection:** During handling and application, minimum recommended protection is chemical splash proof goggles in compliance with
