Raybo 75 ProtectR

FEATURES	SYSTEM	COMMENTS	USAGE (%)
Highly Compatible Resists Corrosion Undercutting	Emulsion Water Reducible Solvent	Complementary to Corrosion Resistant Pigments	1 – 2% Total Weight

PERFORMANCE

Raybo 75 is a hydrophobic complex formulated to provide long term corrosion protection to emulsion, water reducible, and solvent based coatings. **Raybo 75** chemisorbs to steel providing increased adhesion, preventing undercutting, and providing a hydrophobic barrier to resist moisture attack.

In aggressive water systems, use a flash rust inhibitor in addition to the **Raybo 75**. This provides protection during the critical drying cycle.

ADVANTAGES

Provides corrosion protection in a liquid form without the need for anticorrosive pigments.

RECOMMENDATIONS

1 – 2% of Total Weight

PHYSICAL DATA**

Weight/Gallon	8.14
Consistency	Thick Liquid
Melting Point	<0°F

CONTAINER SIZES

North American: 5 gal. pail*, 55 gal. drum, and bulk.
Global Zones: 5 gal. pail*, 55 gal. drum.

* One gallon containers available upon request.

** Typical Properties; not sales specifications.
